eNETEmployer - Your Workforce Management Solution

eNETEmployer offers total employee management through a suite of online tools for Payroll, Human Resource, Employee Scheduling, and Time and Attendance management. Use it to empower your business and reduce the rising costs associated with employee management.
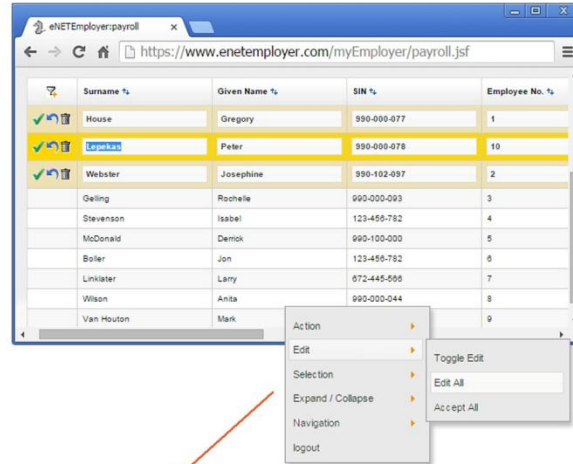

Payroll Module

Effectively manage your employee payroll processing and records including salaries, wages, bonuses, and deductions. Whether simple or complex, eNETPayroll will make the employee payment process faster and more effective.

eNETEmployer pricing includes all of the basic features you need to process your payroll from start to finish. Direct deposit, unlimited employees, interim payroll processing, extra or additional payroll runs, printed cheque or e-mail pay statements, employee self-service, customized reporting and much more.

Innovative Spreadsheet Interface

eNETEmployer uses a familiar spreadsheet layout that allows you edit data in place, re-order columns, expand and collapse rows, and sort / filter data. Flexible formatting options add further capabilities that not only improve readability, but also make it possible to use the data in external reports and presentations.
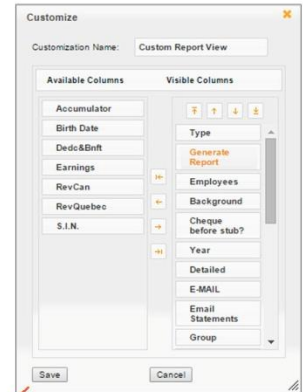

Use context menus to perform in-place data editing with full control over all columns, rows, and cells.

Customize Views

Use the program's unique Customize Views feature to tailor the data display in any order and from any aspect. Show additional columns to drill down for detailed data analysis or hide entire columns to facilitate quicker data entry.

Custom views can be used to produce detailed reports that can be viewed onscreen or exported for external editing.

Save a custom view for more efficient data entry or simply to suit your preferred working style.
